DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 1-10 in the reply filed on 6-17-04 is acknowledged. The traversal is on the ground(s) that the claims are so closely related. This is not found persuasive because the claims are patently distinct by the fact that they have two different search and classification requirements.

The requirement is still deemed proper and is therefore made FINAL.

2. This application contains claims 1-5 drawn to an invention nonelected with traverse in the reply filed on 6-17-04. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Specification

3. Claims 6-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and/or cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.
